DETAILED ACTION

Response to Pre-Appeal Brief Request

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 34, 37-54, and 57-64 are rejected under 35 U.S.C. 102(e) as being anticipated by Porthouse et al (Des. 130,791).

As to claims 34, 37-40, 43, 45-48, 52, 54, 57, 58, and 60-63, Porthouse et al discloses in figured 1 and 2, a tapered stem; an areola region connected to the proximal end of said stem; and a bulbous region being connected to said areola region, wherein said areola region is substantially concentrically aligned with said bulbous region when viewed in a top view and wherein said proximal end of said stem has opposing sides with inwardly concave shapes when view in a front view; an annular edge disposed between said areola region and said bulbous region; and further comprising a flange; and wherein said areola region and said proximal end of said stem are connected along an inwardly concave surface and wherein said inwardly concave surface (at 46) is also considered to be smooth.

Art Unit: 3734

As to claims 41, 42, 44, 49, 51, 53, 59, and 64, wherein said areola and bulbous regions and stem as disclosed by Porthouse et al appears to have dimension as claimed, due to its being used on baby's mouth.

Response to Arguments

2. Applicant's arguments, see remarks, filed 02/28/2006, with respect to the rejection(s) of claim(s) 34, 37-54, and 57-64 under Sheehy '732 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Porthouse et al. (U.S. Des. 130,791).
